

Hazlewoods

# Manager / Senior Manager Transaction Support

Corporate Finance – Bristol

# Manager / Senior Manager

Hazlewoods' Corporate Finance team, of over 40 staff, provides specialist advice to small and mid-market businesses on a wide range of transactions including business acquisitions and disposals, due diligence, business valuations and raising finance for expansion. In 2023, the total value of deals was £670m.

The team is award-winning (Top 10 UK Adviser – Experian) with a Transaction Support team which works closely with corporate acquirers, private equity houses and banks, helping them to evaluate and understand the risks associated with transactions they are embarking on.

As we expand our Bristol team, we are looking for an experienced Transaction Support professional to support our growing, sector-diverse client base.

We'll provide you with a competitive remuneration package, excellent training and a great work/life balance including flexible/hybrid working.

## The right person will:

- Manage due diligence projects and teams to prepare a quality client deliverable e.g. report, within agreed timescales, to aid their decision-making
- Support junior team members, helping them with technical aspects and aiding their development
- Interpret and analyse financial and operational information including historical and projected trading, cash flow and balance sheets
- Support with identifying and reporting key issues which may affect transaction value
- Support with identifying and quantifying potential risk areas that may need to be addressed as part of the deal structure
- Support the business development activities of the Bristol office and the Corporate Finance team.

## You will thrive in this role if:

- You are ACA/ACCA qualified
- You have previous experience in Transaction Support/Advisory work
- You have managerial/assistant managerial experience including developing team members
- You have outstanding communication skills and the ability to build rapport and a network of contacts
- You have the ability to identify core issues from a large volume of data
- You are able to identify risk and/or potentially price-affecting issues
- You have strong Excel skills for reporting and analysis
- You are client-focused with an emphasis on quality, detail and accuracy
- You have the ability to see the bigger picture and thrive under pressure.
