

# Insolvency Practitioner

## Cheltenham, Cardiff or Bristol

Hazlewoods Business Recovery & Insolvency team comprises 6 employees with ambitious future plans for growth. The team primarily manages corporate insolvency cases and supports the wider practice operation.

We deal with a high volume of solvent liquidations (MVLs), insolvent liquidations (CVLs) and some Administrations each year. We deliver a valued service to our contacts who, in turn, trust us by referring their clients to us often when their business is in significant financial distress.

We also receive a high number of referrals from other areas of the firm, mainly comprising MVL work.

Due to continued growth, we are looking to recruit a qualified Insolvency Practitioner.

We are based in our Cheltenham offices, however there is also the opportunity to work partly from either of our centrally located Bristol or Cardiff offices.

We are looking for an ambitious individual who is looking to progress their careers and help drive future growth.

### The right person will:

- Take appointments as a Licenced Insolvency Practitioner
- Manage a caseload of corporate insolvency cases
- Work closely with the Director and Partners to further develop the insolvency offering of the firm
- Support and guide the team, providing training as and when required
- Take an active role in networking and business development.

### You will thrive in this role if:

- You are JIEB qualified and ideally ACA/ACCA qualified
- You have proven experience of winning insolvency work
- You have a minimum of 12 months' experience in taking insolvency appointments
- You have an existing referrer network (advantageous but not essential)
